

## The Best in Holistic Care

**EquiPulmin®** is manufactured for the Equine Industry for horses seeking lung and breathing optimization, from alleviating disorders to maintaining peak performance.

**EquiPulmin®** has been thoroughly tested in North America on hundreds of racehorses with tremendous results.

**EquiPulmin®** is quite unique as it is made from a treasured 150-year-old formula that goes to work immediately throughout the entire respiratory system. It is formulated to open the airways, eliminating mucus and coughing and keeping your horses' respiratory system in balance.

**EquiPulmin®** contains a synergistic blend of premium grade herbs valued for their high level of bioactivity and gentleness. EquiPulmin can be used daily to maintain a healthy respiratory system.

### The Benefits of Using EquiPulmin®:

- Removes Mucus & Stops Coughing
- Helps Stop Lung Bleeding
- Heals Stomach Ulcers
- Controls and Relieves Allergies
- Strengthens the Immune System
- Oxygenates the Blood
- Calms & Relaxes the Horse

### When using EquiPulmin® with other products:

When EquiPulmin is used in conjunction with these drugs it should be administered either one hour before or after the following: Ventipulmin, Sputalysine, Cemedidene, GastroGuard, Tagement, and any antibiotics. The use of these drugs may reduce the effectiveness of the herbal product.

\*Due to the unique, holistic properties of EquiPulmin and variations in horse's needs, dosages may vary and there is absolutely no risk involved in using more than the recommended amount or obtaining any negative side effects.

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

*"EquiPulmin gives my horses an extra edge in competition because they can simply breathe better. Not only does it open up the airway, it soothes the throat and on into the stomach."*

**Stevi Hillman – 2016 NFR Qualifier**
